Nurse Internship Program
Guidelines

- Student must be a junior nursing student.
- Choose summer to complete your internship.
- To participate in the program, student must be enrolled to obtain academic credit for the program from the nursing school.
- One formal application for the internship Program is required per intern.
- Students must provide preceptors with their school’s Core Competencies of Nursing Practice Checklist. This checklist must indicate the competencies that have been met during their course work demonstrating the acquired academic skill level of the student. Upon arrival on the first day of the clinical experience, the student must provide the mentor with the checklist or the student cannot begin the internship.
- The school is responsible for coordinating and obtaining proof of the hours.

Benefits

- Receive hands-on nursing experience in various areas!
  - Under the guidance of a registered nurse.
- Get paid while you learn!
  - Schedule shift/hours with unit manager.
- Intern during the summer
  - Schedule a maximum of 240 hours in May, June, July and August.
- Receive credits for hours worked!
  - 160 hours = 1 credit
  - 240 hours = 2 credits

Why and How to Apply

CHI St. Alexius Health’s Department of Nursing supports an environment that fosters a holistic approach to healing, caring, support and education to the patient, their family and the community.

Consider the CHI St. Alexius Health Nurse Internship Program

“The depth of my nursing skills and knowledge greatly increased because of my mentorship at St. Alexius! My mentor was a flex nurse, and we were able to work in Labor and Delivery, Mom and Baby, and NICU. I was exposed to many different patient situations which pushed me to sharpen assessment skills, and learn more about medications and treatments. Since new parents have lots of questions about their newborns, I was able to practice patient teaching often.

The word mentorship explains this program perfectly. The nurse I worked with truly became a mentor to me. She allowed me to prioritize the patients, decide how the tasks were going to be accomplished, and then let me take the lead. This was very empowering for me. Also, asking questions was greatly encouraged and expected! I even learned a little about starting life after nursing school!

I enjoyed working at CHI St. Alexius Health, because I felt valued as a person and not just a number. I also felt the patients were valued and received holistic care. I was so nervous on my first day, but I received many warm smiles and ‘Good mornings’ that it seemed I fit in immediately!”

About CHI St. Alexius Health

Mission:
The Mission of Catholic Health Initiatives is to nurture the healing ministry of the Church, supported by education and research. Fidelity to the Gospel urges us to emphasize human dignity and social justice as we create healthier communities.

Core Values:
• Reverence: Profound respect and awe for all of creation, the foundation that shapes spirituality, our relationships with others and our journey to God.
• Integrity: Moral wholeness, soundness, fidelity, trust, truthfulness in all we do.
• Compassion: Solidarity with one another, capacity to enter into another’s joy and sorrow.
• Excellence: Preeminent performance, becoming the benchmark, putting forth our personal and professional best.

Vision:
Our Vision is to live up to our name as one CHI:
• Catholic - Living our Mission and Core Values.
• Health - Improving the health of the people and communities we serve.
• Initiatives - Pioneering models and systems of care to enhance care delivery.

IT PAYS TO BE A NURSE

By the year 2020, there will be an estimated shortage of 800,000 nurses!

Nurses now make an average of $40,000 to $65,000 annually.
